## DETAILED ACTION

In response to Amendment filed December 16, 2004

### *Reasons for Allowance*

1. The following is an examiner's statement of reasons for allowance:
  - a. Claims 1 – 11 are allowable over the Prior Art of Record because it fails to teach or suggest a sensor positioning system for holding sensor units in fixed relative locations in a detachable manner comprising the plurality of sensor units and the plurality of sensor leads being retained by the template in a detachable manner such that the plurality of sensor units and the plurality of sensor leads are fully detachable from the template permitting separation of the template from the plurality of sensor units and the plurality of sensor leads in combination with the remaining limitations of the claims.
  - b. Claims 12 - 19 are allowable over the Prior Art of Record because it fails to teach or suggest a method of positioning sensor units on a substrate surface at predetermined locations comprising the step of subsequently removing the template from the substrate, leaving the sensor unit attached to the substrate surface at the predetermined location in combination with the remaining limitations of the claims.

Art Unit: 2859

c. Claims 20 - 23 are allowable over the Prior Art of Record because it fails to teach or suggest a sensor positioning system for aligning sensor units to predetermined locations on a surface of a transparent substrate comprising a plurality of sensor units and a plurality of sensor leads, an individual sensor lead attached to a sensor unit at one end and attached to a connector at the other end, the sensor assembly and the template being physically separate in combination with the remaining limitations of the claims.

d. Claims 24 - 27 are allowable over the Prior Art of Record because it fails to teach or suggest a method of positioning sensor units on a surface of a planar transparent substrate at predetermined locations comprising the step of placing a template that has alignment marks against a first surface of the substrate such that the alignment marks are visible through the substrate and attaching the sensor unit to a second surface of the substrate at the predetermined in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
